

May 7

WEEKLY FISH MARKET.

Trade shows a little improvement the past week. The market is steady and firm and no changes in prices are noted, either on cured fish or fresh or salt fares from vessels.

The sealing fleet has found a few fish out south, but the season there will now be short, as many of the vessels will go to the Cape Shore. Some however will probably stay out there if there is any prospect.

The receipts at this port for the week ending May 7 are

95,000 lbs. salt cod.
501,000 lbs. fresh cod.
57,000 lbs. halibut.

Early May Fishing in New Hampshire and Maine.

Good fishing is being reported from New England's Lakes. In New Hampshire last week in Lake Winnepesaukee over thirty trout averaging four pounds apiece were caught, and the salmon are topping six and a half pounds. Newfound lake is sending forth some likely samples, and Sunapee has her usual crowd of callers. In Sebago dam in Maine last week some bouncers weighing 14, 12, 10, 8 and 7 1-2 pounds respectively were landed. The fishing in all lakes where the ice has left is first-class, and, from the present outlook, it appears that Moosehead and Rangeley lakes will be on the fishing list by the middle of next week.

Don't go fishing without the Boston & Maine's beautiful illustrated booklet, "Fishing & Hunting" and the new book just out giving the game laws of Maine, New Hampshire, Vermont, Massachusetts, Nova Scotia, Newfoundland and New Brunswick. You can procure them both by sending two cent stamp to the General Passenger Department Boston & Maine Railroad, Boston, Mass.

Gill-Netting Big Cod.

A new kind of cod fishing has been undertaken at Boothbay Harbor, the netting of cod in gill nets, sunk near the bottom. One boat for three days this week has brought in from 10,000 to 12,000 pounds daily of cod taken off the Cuckolds, each fish weighing from 20 to 40 pounds. The meshes of the net permit all under a certain size to pass. Now fishermen need not depend on bait, and this removes one great trouble and expense in the business.

Vessels Fast in Ice.

Two French fishing vessels have been driven ashore by ice floes on the west coast of Newfoundland, whither they were bound to secure bait. Their crews were saved, but the vessels were destroyed. Seven ocean steamers, bound into the gulf of St. Lawrence for Montreal, are fast in the ice off Cape Ray. An immense ice pack blocks the route of the steamers.

Fresh Fish Sales.

The fares of schs. Rob Roy and Arthur Binney sold to Slade Gorton & Co., that of sch. Metamora to Cunningham & Thompson, and that of sch. Dido to Reed & Gamage.
